Mecum and McCollister's

A Strategic Partnership

Follow us @Mecum_auctions
@mccollistersautotransport

Mecum Auctions is the world's largest car enthusiast auction/ event with 14 national car auctions per year. Mecum specializes in the acquisition and resale of classic, exotic and muscle car collections. These auctions are dynamic and take place every month throughout the year. Unlike most auction companies Mecum Auction "Brings the Auction to you."

Over the last 18 months McCollister's has been engaged in strategic conversations on how to improve the overall customer experience for Mecum buyers and sellers. Through many months of meetings and conference calls McCollister's Auto Transport signed a 5-year contract and has entered into a strategic partnership with Mecum Auctions. The result is a new Mecum Branded Auto Transport company that is completely operated behind the scenes by McCollister's Auto Transport in Burlington, NJ. Twelve brand new Hard-side Enclosed Trailers powered by twelve new Volvo VNL-780's are now fully operational and will be seen on our nation's highways.

The launch and debut of this new division took place at the NRG Center in early April for the annual Mecum Auction event that takes place in Houston, TX. The event was super successful and we look forward to a long term and continued partnership with our friends at Mecum Auction.
